

WHAT CAN FLEET DO FOR YOU?

The World's Most Advanced Remote Generator Service Operation Platform

FLEET PRODUCT VISION

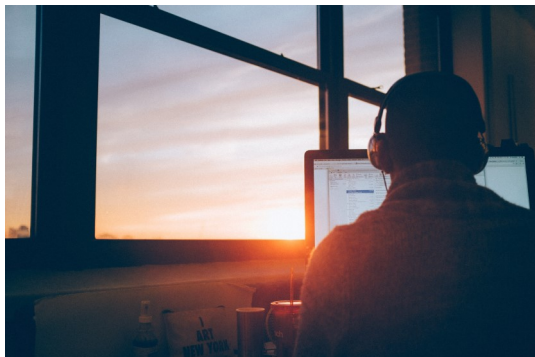

“To provide the most advanced, comprehensive generator service operation platform leading to stronger dealer-consumer relationships, higher levels of service via increased awareness, improved service efficiencies, and bandwidth expansion, resulting in an improved bottom line.”

Drive Additional Revenue

With each customer added to Fleet, you share in recurring service revenue for the life of the customer subscription. Compound your annual revenue potential by regularly connecting and adding customers to Fleet.

Increase Operational Efficiency

Maximize your operational efficiency by accessing detailed generator insights obtained from Fleet. Leverage this information to improve service tech scheduling, parts ordering, administrative work and cost savings.

Improve Customer Satisfaction

Knowing when a generator needs attention before your customer does, provides a unique opportunity to provide proactive, and even preventative service to your customer, resulting in improved customer satisfaction.
