

# FLEET

Connect your customers  
and boost your sales with  
a WiFi / Ethernet accessory

# Get connected

---

Introducing Mobile Link WiFi / Ethernet, the next generation WiFi and Ethernet accessory. The Mobile Link WiFi / Ethernet accessory easily connects to a home network wirelessly through an available WiFi network or directly through a wired Ethernet connection. This local network delivers fast download speeds automatic system upgrades and delivery of generator condition notifications. This device pairs with our Mobile Link monitoring service, giving homeowners and our dealer partners\* frontline access to critical information about their generator's status 24/7 for enhanced peace of mind.

*\*When subscribed to a Dealer-Managed Plan*

# What can a Mobile Link WiFi / Ethernet accessory do for you?

Benefit from ongoing access to critical information about your customers' generators through our FLEET program and as a result, increase your sales opportunities when the generator needs servicing.

## Increase Customer Satisfaction

Know immediately when a generator needs attention, potentially before the customer even knows there is an issue.

## Be More Productive

Reduce or eliminate time on site by knowing a generator's needs before you roll a truck.

## Drive Additional Revenue

New, recurring revenue and profit from the subscription sales of Mobile Link service, and driving more service value by including monitoring in your contract sales.

## KEY FEATURES

Get **real-time notifications** about your customer's generator

View their **maintenance needs**

Remotely access your customer's **generator health**

# Easy installation

---

Install and connect the accessory in just three quick steps.

1

Install the Mobile Link WiFi / Ethernet accessory on a customer's compatible standby generator, and connect using the Mobile Link Setup App.

2

Enroll the generator in Mobile Link FLEET at [Fleet.MobileLinkGen.com](https://Fleet.MobileLinkGen.com).

3

Begin monitoring the status of your customer's generator, anywhere, anytime – through the Mobile Link FLEET website at [Fleet.MobileLinkGen.com](https://Fleet.MobileLinkGen.com).

# Who should upgrade?

---

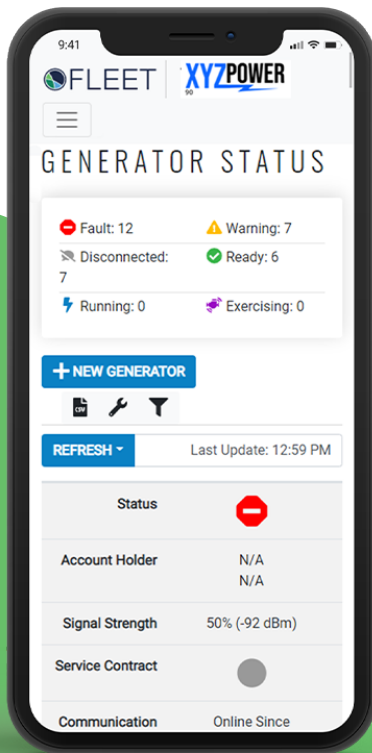

The WiFi / Ethernet device is the perfect accessory for customers with home WiFi or Ethernet access and reliable internet service from their internet service provider and who prefer a lower cost connection solution. This device is also the perfect solution for generators that did not come with onboard WiFi as a standard option. It can be installed on most Generac, Honeywell, Eaton or Siemens air-cooled or liquid-cooled home standby generator up to 150kW, 2010 or newer. All Protector, QT and Honeywell liquid-cooled home standby generators come equipped standard with Mobile Link Connectivity.

*\*Evolution 2.0, Evolution 1.0 and Nexus controllers are supported. PowerPact models are not supported.*

# Maximize your FLEET revenue

Tap into the universe of generators that are not yet connected in your service area to boost your revenue and profits with ongoing monitoring, service and maintenance contracts. Leverage this new Mobile Link connectivity solution to boost your sales and gain a competitive advantage.

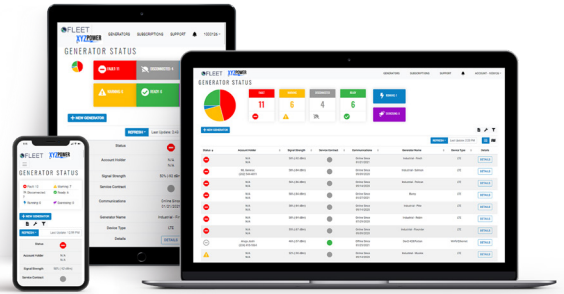

## How to get started with Mobile Link FLEET

- 1 Purchase Mobile Link FLEET Subscriptions by logging on to your GenService account.
- 2 Those subscriptions will automatically show up on your Mobile Link FLEET Dashboard.
- 3 Go into Mobile Link FLEET Dashboard/Subscriptions.
- 4 Apply the Subscriptions to your Mobile Link customer.
